Summary of scientific/practical activities:

Since 1999 I have been pursuing scientific and design activities parallel to each other, partly at the BME, Faculty of Architecture, Department of Urban Planning and Design, partly as a designer of Lenzser & Partner Ltd and Czirjak Szabo Ltd and also as an organizer of the EUROPAN Urban Design competitions in Hungary. My activities deal with the common edge of Urban Design and Architecture, and in my research work and publications I mainly deal with the issues of urban sustainability and urban density.
